ESCel: **E-learning**

On line learning

2012 träning och certifiering inom
subspecialiteter, men också fortbildning
(för medlemmar)

ESCel: **E-learning**

- Acute Cardiac Care
- Cardiovascular imaging
- Heart Failure
- Heart Rhythm
- Percutaneous Interventions
- Prevention & Rehabilitation
- General Cardiology

ESCel: **E-learning**

Nu stor satsning på **General Cardiology**

- lanserad vid ESC:s kongress 2014
- kostnadsfritt
- 28 områden strukturerade i webbkurser
- möjlighet följa progress
- MCQ för formativ utvärdering

ESCel: E-learning

- 5 områden inom General Cardiology
- 50 kurser
 - Anamnes och klinisk undersökning
 - EKG
 - Icke-invasiv imaging
 - Invasiv imaging
 - Kardiovaskulär prevention

28 tänkta områden

Flera kurser inom varje område

Baserade på guidelines och ESC textbook

Topics	Complete	In progress	Not started
1. History Taking and Clinical Examination (3 courses)			
2. The Electrocardiogram (10 courses)			
3. Non-invasive imaging (18 courses)			
4. Invasive Imaging - Cardiac Catheterisation and Angiography (5 courses)			
5. Genetics (coming soon)			
6. Clinical Pharmacology (coming soon)			
7. Cardiovascular prevention (14 courses)			
8. Acute Coronary Syndromes (ACS) (coming soon)			
9. Chronic Ischaemic Heart Disease (coming soon)			
10. Myocardial Diseases (coming soon)			
11. Pericardial Diseases (coming soon)			
12. Oncology and the Heart (coming soon)			
13. Congenital Heart Disease in Adult Patients (coming soon)			
14. Pregnancy and Heart Disease (coming soon)			
15. Valvular heart disease (coming soon)			
16. Infective endocarditis (coming soon)			
17. Heart Failure (coming soon)			
18. Pulmonary Arterial hypertension (coming soon)			
19. Physical activity and sport in primary and secondary prevention (coming soon)			
20. Arrhythmias (coming soon)			
21. Atrial Fibrillation and Flutter (coming soon)			
22. Syncope (coming soon)			
23. Sudden Cardiac Death (SCD) and Resuscitation (coming soon)			
24. Diseases of the Aorta and Trauma to the Aorta and Heart (coming soon)			
25. Peripheral Artery Diseases (coming soon)			
26. Thromboembolic Venous Disease (coming soon)			
27. Acute Cardiovascular Care (coming soon)			
28. The cardiac consult (coming soon)

ESC Congress resources

ESC congress 365
Free access to ESC Congress
content all year long

ESCel: **Guidelines into Practice tracks**

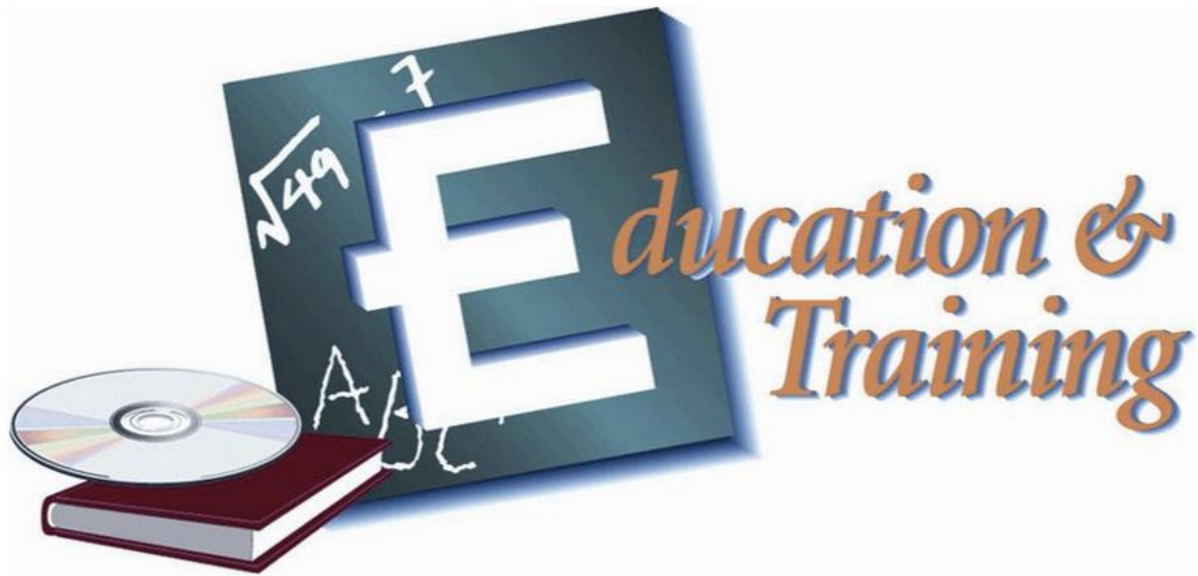

- Material från ESC kongress för resp ny guideline som presenteras
- Tyngd på implementering av guidelines i kliniskt arbete
- Ämne - Sessions - Slides – Webcasts – Posters
- Rel många sessioner med kliniska fall

ESCel: **Guidelines into Practice tracks**

Exempel från guidelines Lungembolism 2014:

- Guidelines – vad är nytt? Vad har ändrats?
- Akut lungemboli
- Hot topics
- Randomiserade studier och metaanalyser
- Posters
- Kronisk lungembolism
- Imaging vid lungemboli
- Nya interventioner
- Övergång akut – kroniskt förhöjda lungtryck

What is ESCeL all about?

www.escardio.org

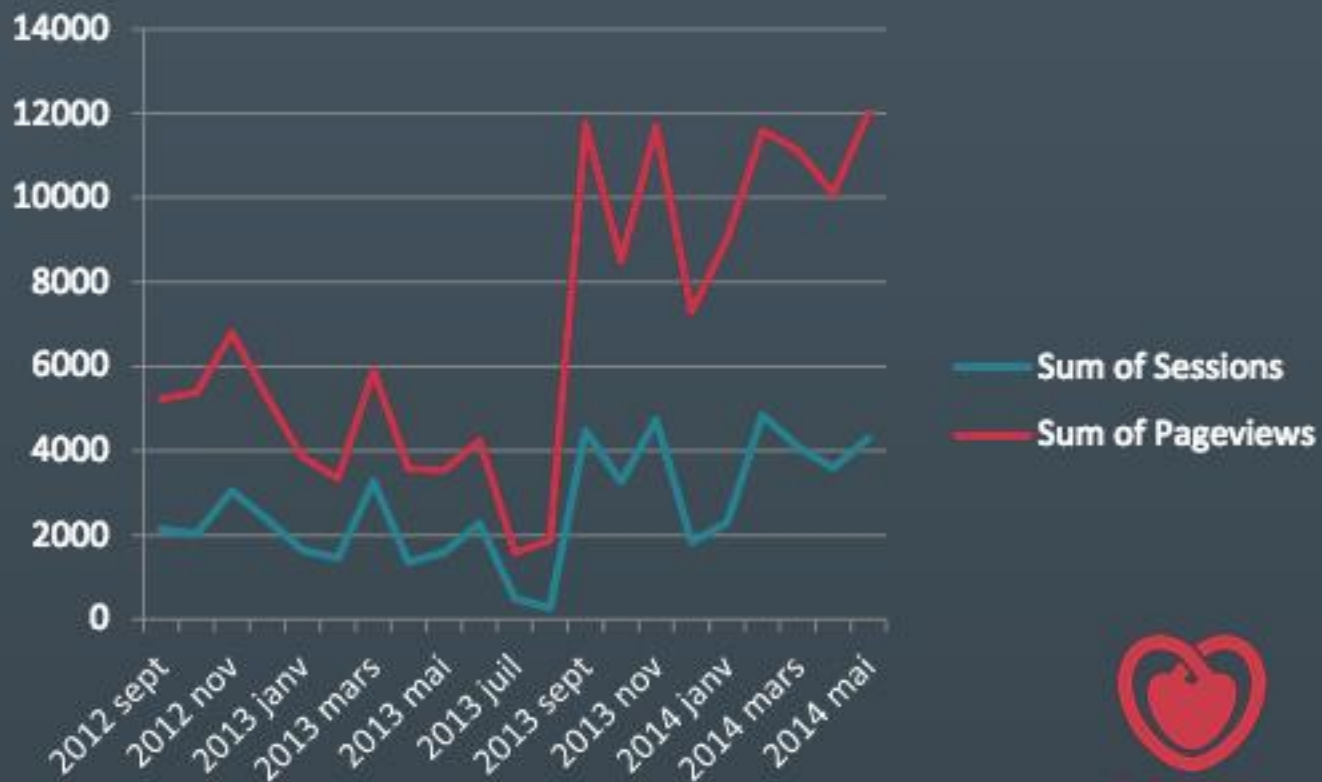

ESCel

- Vill de olika National Societies införliva ESC General Cardiology learning programme i ESCel i sina nationella program?
- ST-utbildning och fortbildning (CME)
- Samarbete istället för många olika lokala initiativ
- Översättningar?

Visits of recordings gallery

Available from Education Web pages

EUROPEAN
SOCIETY OF
CARDIOLOGY

ESCel

Varför webbaserat?

- ekonomiska resurser begränsade
- tidsmässiga resurser begränsade
- ökat tryck från myndigheter

Allt svårare för läkare att resa iväg på kurs
